Spring Term - January-March 2023

Welcome

As part of the Early Help Children and Families Service, the Parenting and Adult Education (PAE) team coordinate courses, programmes and employment pathways for families with children from birth – 19 years old and up to 25 years for children with Special Educational Needs and Disabilities (SEND). We focus our offer on enabling early steps into parenting and education which includes:

- increasing parenting understanding and knowledge
- access to education and training
- employability and good job opportunities.

We offer access to a variety of courses and programmes which are delivered at your local Children and Family Centre on a termly basis. Where this is not possible we have outlined pathways and support in accessing the programmes directly with the provider. Further information on this can be accessed by contacting the PAE team.

We work with a range of training providers and organisations for which there is an eligibility criteria. Further information on this is available in the [how to apply](#) section.

Exclusive to our service, the majority of courses and programmes delivered in the Children and Family Centres include free crèche provision. This means you can bring your child and leave them with our experienced crèche team whilst you learn. It is important to note that spaces are limited and provided on a first-come first-served basis. Age range for the crèche is 6 months-5 years old.

This directory outlines in detail the programmes and courses on offer, course content, time and duration of programmes and how to apply. If, however, you need further information please speak to a member of staff at your local Children and Family Centre.

Eligibility summary:

All our courses and programmes are free if you live in Tower Hamlets and have a Child in the household from birth - 19 years old (25 with SEND). Courses and programmes highlighted with a **star** require you to have lived in the UK for three years or more and either be unemployed, in receipt of benefits or require your household income to be less than £21,157.50 per annum.

Further information on this is available in the [how to apply](#) section.

Tower Hamlets Family Hubs

What are Family Hubs?

Family Hubs are a new way of bringing together all the support children, young people and families may need, right through from birth to young people turning 19 (or 25 if they have Special Educational Needs and Disabilities).

The Government has committed to championing Family Hubs. They are a way of joining up locally to improve access to services, the connections between families, professionals, services providers, and putting relationships at the heart of family help.

Our shared vision

Every child, young person and family feels included in their communities, is happy and healthy, and can easily get any help they need in order to thrive and reach their potential.

By sharing resources, and working together, we will strive to ensure families receive the services they need. Parents will feel supported and integrated into their communities. They will easily access the help they need, without barriers.

Our shared mission

Early Help in Tower Hamlets is delivered through a Family Hub approach.

We are a community of families and services that are working together to provide timely support for families by helping create opportunities to improve the lives of children.

What are we doing?

We are currently in the first stage of the Family Hub development process. We are gathering information to outline the needs of children, young people and families and engaging with stakeholders to understand how best Family Hubs can meet their needs.

So far we have held the following stakeholder events:

- Community Early Help networking event
- Family Hubs parents and family event
- Family Hubs Workshop 1 – Building a Consensus for Change

To find out more about these events visit www.towerhamlets.gov.uk/familyhubs
